SITUATION REPORT #64

1600 Hours Friday, December 16, 2011

Next SITREP 1600 Hours Monday, December 19, 2011

SUMMARY

Gov. Bob McDonnell declared a State of Emergency for Virginia August 26, in response to the 5.8 magnitude Louisa County earthquake August 23. Several thousand residents and dozens of businesses and other entities reported damage. Louisa County High School and Thomas Jefferson Elementary School suffered major damage.

Aftershocks continue to rumble through the area. The Central Virginia earthquake area experienced a total of 50 recorded aftershocks in excess of 2.0 magnitude. The latest occurred on December 14 with a magnitude of 2.0.

An expanded outreach program, extensive site visits and inspections have turned up large numbers of structures with significant damage that had previously gone undetected or unreported.

Individual Assistance

FEMA denied the Commonwealth's request Individual Assistance for Louisa County October 7, but based on additional data, reversed its decision November 4 and approved assistance for individuals and business owners in Louisa County.

A total of 3,377 individuals have registered with FEMA to seek assistance. Of them, 62 percent have been approved for financial assistance totaling \$6.3 million.

In today's IA report, 3,373 individuals from 53 Virginia jurisdictions had called the FEMA teleregistration number to report earthquake damages. Most of the increase of 62 registrants came from Louisa County with 51.

Nine recipients are eligible for the maximum Individual and Households Program grant of \$31,400.

The registration deadline for earthquake disaster aid is January 3, 2012.

Community Relations

Since November 9, VDEM and FEMA Community Relations teams have fanned out in an expanded outreach program throughout Louisa County to provide information about disaster assistance programs and encourage residents and businesses to register. The teams also spoke before community and religious groups.

CR teams reported they had visited 8,826 homes, or about three out of four homes in Louisa, which has a population of 33,000. They met face-to-face with 3,464 individuals. A total of 1,828 reported damage, but only 498 had registered with FEMA at the time of the visit. The teams also had called on 221 businesses, 233 religious and community organizations, 26 local agencies and two schools.

Disaster Recovery Center

Visits to the DRC remain remarkably high this far into the disaster recovery process. As householders have started to receive their disaster payments, some visitors to the DRC are seeking clarification. Others are asking about the approval process or are applicants registering for the first time. **The 941 individuals who registered at the DRC represented about 28 percent of all registrants.**

The DRC will close temporarily during the holidays starting 6 p.m. on Saturday, December 17, and will reopen at 10 a.m., Thursday, January 5. Help will still be available on-line and by telephone.

Public Assistance

The governor announced November 10 that FEMA had approved a Major Disaster Declaration for Public Assistance for Louisa County requested by the Commonwealth October 21. FEMA designated Spotsylvania County November 18 as an add-on for Public Assistance. On December 6, FEMA added the city of Fredericksburg as eligible for Public Assistance.

As the extent of significant amounts of infrastructure and private structural damage became apparent, VDEM and FEMA sent out additional joint assessment teams to quantify it in surrounding jurisdictions. On December 6, FEMA granted an extension of the deadline to December 22 for completing verification of damages for both Individual and Public Assistance requests in undesignated localities.

In another development, Arizona responded to VDEM’s Emergency Management Assistance Compact request December 7 for Public Assistance staff support in the event that more jurisdictions are added to the disaster declaration.
