SITUATION REPORT #74

1600 Hours Tuesday, January 17, 2012

Next SITREP 1600 Hours Wednesday, January 18, 2012

SUMMARY

Gov. Bob McDonnell declared a State of Emergency for Virginia August 26, in response to the 5.8 magnitude Louisa County earthquake August 23. Several thousand residents and dozens of businesses and other entities reported damage. Louisa County High School and Thomas Jefferson Elementary School suffered major damage. **As of mid-January, the U.S. Geodetic Survey said, 51 aftershocks with a magnitude greater than 2.0 had struck the area. The latest one, a 2.3 magnitude, was recorded January 13.**

FEMA announced a Presidential Major Declaration for Individual Assistance November 4 for Louisa County and added Public Assistance November 10. Later, Spotsylvania County and the city of Fredericksburg were declared for Public Assistance. An expanded outreach program, extensive site visits and inspections turned up large numbers of structures with significant damage that had previously gone undetected or unreported.

On December 28, FEMA approved requests for federal assistance for seven jurisdictions affected by the earthquake: Culpeper County, Individual and Public Assistance; Fluvanna, Goochland and Orange counties, Individual Assistance; Northampton County, Public Assistance; and Spotsylvania County and the city of Fredericksburg, Individual Assistance.

The Earthquake Engineering Research Institute (EERI) has prepared a 13-page analysis of the Louisa earthquake. The report details the seismological cause of the event, and the type and extent of damages including the impact on nearly 4,000 homes and businesses, the North Anna Nuclear Power Station and the Washington Monument. The report, which noted major differences between East Coast and West Coast quakes, looked at the limited ability of the region to deal with the impact of even a moderate earthquake on evacuation, communication and transportation. Individual Assistance

FEMA denied the Commonwealth's request Individual Assistance for Louisa County October 7, but based on additional data, reversed its decision November 4 and approved assistance for individuals and business owners in Louisa County.

IA Registration in Declared Localities (As of 1/17/12)	
Locality	Number
Culpeper	80
Fluvanna	202
Fredericksburg	56
Goochland	166
Louisa	3,601
Orange	134
Spotsylvania	392
Total	4,631
Virginia Total	4,826
Percent of All Registrations	96%

FEMA granted a 60-day extension of the teleregistration period until March 5, 2012. VDEM requested the extension because of the steady high volume of teleregistrations and the number of individuals visiting the Disaster Recovery Center in Louisa. The volume of registrations and visits reflected an intensive Community Relations initiative.

In today's IA report, 4,830 individuals from 60 Virginia jurisdictions had called the FEMA teleregistration number to report earthquake damages. Of the 4,274 referrals from declared localities, 75 percent have been approved for financial assistance totaling \$8.8 million. Of the 73 new registrants, 71 were from the declared jurisdictions.

Twelve recipients are eligible for the maximum Individual and Households Program grant of \$31,400.

Public Assistance

The governor announced November 10 that FEMA had approved a Major Disaster Declaration for Public Assistance for Louisa County requested by the Commonwealth October 21. FEMA designated Spotsylvania County November 18 as an add-on for Public Assistance. On December 6, FEMA added the city of Fredericksburg as eligible for Public Assistance. On December 28, Culpeper and Northampton counties were added.

**Summary of Public Assistance Activity
FEMA 4042 (As of 1/17/12)**

As the extent of significant amounts of infrastructure and private structural damage became apparent, VDEM and FEMA sent out additional joint assessment teams to quantify it in surrounding jurisdictions. Verification of damages for both Individual and Public Assistance requests in undesignated localities was completed December 22.

The Project Worksheet to repair the heavily damaged Thomas Jefferson Elementary School has been completed and is under review. The worksheet would cover the uninsured portion of the damages incurred from the earthquake.

PROGRAM REPORTS

Joint Incident Priorities:

1. Determine resource needs to support recovery operations.
2. Ensure a safe and healthy working environment.
3. Work together as a cohesive team.
